Planned gas works on Elmer Road

Update 4th July 2026

The current phase of work affecting St Nicholas Lane and Southdean Drive is scheduled to be completed within the next two weeks.

Contractors have been delayed by unforeseen complications involving other services and are working hard to resolve the issues.

All reinstatement work will be completed and the traffic lights removed from the northern end of Southdean Drive.

Vehicles exiting Southdean Drive will be required to join the two-way traffic light system on Elmer Road.
